Table of Contents

Acknowledgements **5**

Preface **11**

A. Introduction 11
B. The Goal and Objectives 14
C. Methodology and Chapter Structure 16

Chapter 1:
Post-Consumption **23**

1.1 Introduction: Towards Aspects of Post-Consumerism 23
1.2 From Identity to Trace 31

Chapter 2:
Ethics, Meaning, and Sense in the Post-Consumerist Society **41**

Introduction 41
2.1 Part One: Subject to Subject Relation or Sum of Statistical Units to Sum of Statistical Units Relation 50
2.2 Part Two: Statistical Units to Those Who Belong to the Center Relation 50
2.3 Part Three: Meta-Analysis of Part One 51
2.4 Part Four: Meta-Analysis of Part Two 54
2.5 Part Five: The Performativity of the Action and the Fallacy of Derrida 56
2.6 Part Six: What is the Glaring (*απαύγασμα*)? From Aesthetics to Logic 60
2.7 Part Seven: Trace and Arbitrariness in the Post-Consumerist Society 62

Chapter 3:
Self-portrait in a Neuron Mirror **67**

Of Eschatological Exteriority Introduction 67
3.1 Neuron Mirrors: A Brief Overview 71
3.2 The Critique of Mirror Neurons by Gregory Hickok 76
3.3 Phenomenological and Hermaneutical Overview 80
3.4 On Speculative Poetics 84

Chapter 4:
Objective and Subjective Medical Reasoning: An Overview 91

Introduction 91
4.1 From the Biomedical Model to a More Human-Based Approach, Towards a Paradigm Shift 92
4.2 Different Worldviews/Paradigms and Different Foundations 94
4.3 Objectivity Versus Subjectivity 97
4.4 Objective Thinking Based on Statistics 98
4.5 Objective Thinking as Evidence-Based Medicine 100
4.6 Subjective Thinking 102
4.7 Doctor-Patient Relationship in the Information Age 107
Conclusions 111

Chapter 5:
The Impact of Big Data on Medicine 113

Introduction 113
5.1 Omic technologies 114
5.2 From Three Vs to Five Vs—Characterization of Big Data 115
5.3 How New Knowledge is Acquired from Data Mining 116
5.4 The Role of the Internet (Web 2.0) 120
5.5 A Brief History of Taxonomy 122
5.6 The Need for the Categorization of Disease on a Molecular Basis 123
5.7 The Limits of Big Data and Randomized Control Trials (RCTs) 123
5.8 Data-Driven/Hypothesis-Driven/ Hypothetico-Deductive Medical Reasoning in Comparison with Alexander Gungov's Interpretation of Abductive Method in *Patient Safety: The Relevance of Logic in Medical Care* 125
5.9 The debate between Naturalism and Normativism 132
Conclusions 139

Chapter 6:
Information Society and a New Form of Embodiment 141

Introduction 141
6.1 Bodily Governance 144
6.2 Transforming Bodies 147

6.3 Virtual Bodies 149
6.4 Medical Bodies 151
6.5 Sexual Bodies 154
6.6 Transhuman Bodies 156
Conclusions 159
Conclusions 163
Bibliography 175
Appendix 185
