

# Contents

<b>1</b>	<b>Introduction</b>	<b>11</b>
1.1	Motivation . . . . .	11
1.1.1	State-of-the-Art Personalization in Internet Applications . .	11
1.1.2	Disadvantages of Commonly Used Personalization Techniques	13
1.2	Objectives . . . . .	14
<b>2</b>	<b>Fundamental Concepts Revisited</b>	<b>17</b>
2.1	Preference World . . . . .	17
2.1.1	Preference Modeling . . . . .	18
2.1.2	Preference-Based Query Languages . . . . .	22
2.1.3	Preference-Based Applications . . . . .	24
2.2	Knowledge Discovery and Data Mining . . . . .	27
2.2.1	Survey of Relevant Data Mining Methods . . . . .	28
2.2.2	User Log Data in Web Applications . . . . .	31
2.2.3	Usage of Data Mining for Personalization . . . . .	35
<b>3</b>	<b>Preference Mining Algorithms</b>	<b>39</b>
3.1	Theoretical Approach . . . . .	39
3.1.1	Preferences in Log Data . . . . .	39
3.1.2	Data-Driven Preferences in Categorical Data . . . . .	43
3.1.3	Data-Driven Preferences in Numeric Data . . . . .	49
3.1.4	Data-Driven Prioritized Preferences . . . . .	56
3.1.5	Data-Driven Pareto Preferences . . . . .	58
3.1.6	Data-Driven Numerical Preferences . . . . .	61
3.1.7	Mining General Complex Preferences . . . . .	63
3.1.8	Properties of Data-Driven Preferences . . . . .	64
3.2	Algorithms . . . . .	66
3.2.1	Categorical Data . . . . .	66
3.2.2	Numeric Data . . . . .	74
3.2.3	Complex Preferences . . . . .	77

<b>4</b>	<b>Experimental Evaluation</b>	<b>85</b>
4.1	Implementation Aspects . . . . .	85
4.1.1	Preference Miner Architecture . . . . .	85
4.1.2	Realization in Java and SQL . . . . .	86
4.1.3	Clustering and Density Estimation in Databases . . . . .	89
4.1.4	Interfaces of the Preference Miner Implementation . . . . .	91
4.2	Evaluation of the Preference Mining Algorithms . . . . .	92
4.2.1	Preference Mining on COSIMA Log Data . . . . .	92
4.2.2	Evaluation with Synthetic Profiles . . . . .	94
4.2.3	Quality of Preference-Based Recommendations . . . . .	102
4.3	Performance Measurements . . . . .	106
4.3.1	Categorical Preferences . . . . .	106
4.3.2	Numeric Preferences . . . . .	108
4.3.3	Prioritized <sub>D</sub> and Pareto <sub>D</sub> Preferences . . . . .	108
4.3.4	K-Complex Preferences . . . . .	109
<b>5</b>	<b>Preference Repository</b>	<b>111</b>
5.1	Design Principles . . . . .	112
5.2	Situated Preference Model . . . . .	114
5.2.1	Survey of Situation Modeling . . . . .	115
5.2.2	Requirements for a Situation Model in the Preference World	116
5.2.3	A Situated Entity-Relationship Model . . . . .	117
5.2.4	Integration of Situations into Personalized Applications . . .	121
5.2.5	Situated Preferences . . . . .	122
5.2.6	Gaining Situated Preferences Using Preference Mining . . .	123
5.3	XML Framework of the Preference Repository . . . . .	124
5.3.1	Document Type Definition . . . . .	124
5.3.2	Examples of Preference Repositories . . . . .	128
5.4	Access Operations . . . . .	132
5.4.1	Write Operations . . . . .	133
5.4.2	Read Operations . . . . .	135
5.4.3	Accessing Situated Preferences . . . . .	137
<b>6</b>	<b>Applications</b>	<b>139</b>
6.1	COSIMA . . . . .	139
6.1.1	Preferences in the COSIMA Application . . . . .	139
6.1.2	Personal Customer Advice with Preference Mining Preferences	141
6.1.3	Personalized Electronic Bargaining . . . . .	142
6.2	P-News . . . . .	144
6.2.1	Preferences in a Personalized Notification Service . . . . .	144

---

6.2.2	Mining and Management of P-News Preferences . . . . .	145
6.2.3	Computing Individually Relevant Publications . . . . .	146
6.3	Preference-Based Recommendations . . . . .	146
6.4	Preference Mining on Web Logs . . . . .	148
6.5	One-to-One Marketing . . . . .	149
<b>7</b>	<b>Summary and Outlook</b>	<b>151</b>
7.1	Achievements . . . . .	151
7.2	Related Work . . . . .	153
7.3	Outlook and Future Work . . . . .	157
	<b>Bibliography</b>	<b>159</b>
	<b>A Preference Repository Document Type Definition</b>	<b>169</b>
	<b>B Preference Repository Example</b>	<b>175</b>
	<b>Index</b>	<b>179</b>
